

# the Emmanuel Connection

November 2022

## Focus on: Judith Misalaba

*Judith is a Field Coordinator in the KWETU project in Mwanza, Tanzania.*

My name is Judith Pamela Misalaba. I'm a born again Christian. I am working as a Field Coordinator in the KWETU project with Emmanuel International in Mwanza Tanzania.

I am responsible for organising, coordinating, overseeing and implementing the goals of the KWETU project. I also support the EI team as needed.

I feel good working with EI as it is an organisation which helps me to grow spiritually and intellectually. Not only that but also I enjoy working with society because I can contribute my skills and knowledge which will help transforming agricultural activities and lead to healthy soil, healthy plants, hence healthy society. As a two way traffic also I can learn different skills and ideas which could help me to improve my home garden and my career development.

My hobbies include reading books, singing gospel, exchanging ideas with different people as well as doing exercises during evening.

After working hours, I spend my time with my family, playing and doing homework with my children. I engage in keeping chickens and doing a home garden. Thank you.

- 7 Uganda:** A team of 8 church leaders, who completed the Kairos missions training earlier this year, are going to Kaabong to have a one week cross-cultural exposure visit. The goal is to give them first-hand experience of the mission field, and to help them see where their churches can partner to address the gospel needs and opportunities.

- 8 Tanzania:** The EI Tanzania board meeting is today. Pray for all those travelling to Iringa (Joel, Sue, Linda, Edward, Joshua and some of the board members); also for good discussions and good internet connection as other members will be meeting in Mwanza via zoom.
- Philippines:** Pray for all the Matigsalug children who received school supplies in October; that the interest of the teachers to use our children's materials for their values education will be sustained.
